Dear Hiring Manager,

I would like to apply for the position of Furniture Maker / Cabinet Maker in your workshop. I have over 10 years of hands-on experience in custom furniture production and on-site installation, including projects delivered for international clients and companies — among them work for the UK market.

For the past 4 years I have been running my own independent workshop, managing projects end-to-end: from initial consultation and 3D design, through workshop production, to on-site installation. My work spans custom kitchens, wardrobes, dressing rooms, bathroom cabinetry, hallways, and office spaces.

I am experienced reading technical drawings, working with MDF, laminated boards, plywood, and solid wood, and operating professional woodworking machines and hand tools. I take pride in precision, clean finishes, and meeting agreed timelines.

I am looking for a long-term position in a small to medium-sized professional workshop where quality, precision, and teamwork are valued. I am motivated to relocate to the Netherlands because I appreciate the country's reputation for structured work environments, fair communication, and high craftsmanship standards.

I would welcome the opportunity to discuss how my experience can contribute to your team. My portfolio of recent projects is available at alexandrururtea.nl, and I am available for an interview at your convenience — in person or via video call.

Thank you for considering my application.

Kind regards,

Alexandru Burtea
